## ABOUT MDF SHEETS

---

▶ **U**RO VENEER WORLD deals in MDF Sheets which are divided into decorative MDF which is composed of fine quality medium density fiber and are crafted in various patterns. The variety in designs help you create your dream designs with ease. Decorative MDF come in various grill and non-grill patterns, hence are very versatile in its utility.

Decorative wave boards and grill wall panels are innovative wood with its core composition being wood fibre of medium density (MDF). MDF is a precisely engineered wood product developed from wood fibres (residuals of broken down soft or hard wood) which are combined with wax and resin binder. This is eventually converted into panels by applying high temperature and pressure. It is well processed to create a final product which is a fashionable decorative material featuring elegance and endurance in design. The product has a wide range of applications from ceiling, partitions, panelling etc.. making it a vivid. The product has the ability to deliver an impressive visual appeal to any home, office, showroom, hotel etc... as the designs are unique and innovative.

These MDF panels are available in various thickness and sizes thereby providing a vast range of selection.
